## SE-120DX   100m DVI KVM Extender

SE-120DX   the CAT5 DVI KVM Extender Over LAN w/ Audio & Mic, consists of two individual untis: Transmitter and Receiver. With these two units at hand, they are able to extend the distance between remote and local console up to 100 meters away via a CAT5 cable, including keyboard, monitor, mouse, speaker, microphone, and USB devices. It utilizes new IP extender technology that user can not only deploy remote console in a more flexible manner, but also enjoy the high resolution rate of 1920 x 1200 @ 60 Hz / Full HD 1080p at the same time. It support Graphic Mode & Video Mode selection to suit display requirements. Graphic mode is optimized for still graphic displays; while video mode is best for a dynamically changing video stream.

Features

* Extension distance up to 100M / 330ft over a single CATx UTP cable segment。

* Use a single CATx UTP cable for direct connection between the TX and RX units, or can connect via a Gigabit Ethernet Switch in between。
